CHECKING EDITION
SECTION 1: A
MAY 1939

# Union List of Serials

in Libraries of

## The United States and Canada

*Second Edition*

Edited by
WINIFRED GREGORY

Advisory Committee
appointed by the American Library Association

DONALD B. GILCHRIST, *Chairman*
ROBERT B. DOWNS HARRY M. LYDENBERG
NATHAN VAN PATTEN HELMER L. WEBB
WYLLIS E. WRIGHT

*Published by*
The H. W. Wilson Company
New York City

# Acknowledgment

To the Rockefeller Foundation, all libraries interested in this new edition will be deeply indebted and, the committee hopes, duly grateful. The editorial expense of preparing this checking edition and the cost of printing it is being met through special grants from the Foundation to the American Library Association for this purpose. The publishers and the committee anticipate that the grant from the Rockefeller Foundation will bring the price within the reach of all classes of libraries. The publishers on their part recognizing the need for this list, the very heavy expense involved, and the contributions made by the Foundation, have stated it to be their purpose to publish this second edition, as they did the first, at cost and without profit.

DONALD B. GILCHRIST
For the Advisory Committee of the A.L.A.

# Introduction

With this first issue of the checking edition, the long felt need for a new edition of the Union List of Serials seems well on the way toward being satisfied.

The present list of periodical titles selected for the checking edition has been compiled from the following sources:

(1) Titles in the original union list of 1927, and its two supplements of 1931 and 1933, corrected and revised.

(2) New titles sent in by volunteers among the original subscribers, including all new titles acquired by the New York Public Library and the Library of Congress since 1933.

The amount of revision and correction necessary has proved to be beyond all preliminary calculations, and the number of new titles may be approximately half those in the original list.

# Plans for publication

Present plans call for this checking edition to be complete in ten sections, the last to be out in June 1940. By September 1940 all sections should be checked and new titles in the editor's hands. After all sections are returned, a single supplement, incorporating additions found or reported, will be used for checking by the cooperating libraries.

Schedules have not yet been worked out for the return of checked sections, but it is certain that none will be called for before September 1939.

# Suggestions for checking

It is hoped that each library will check the lists as soon as they are received, even tho they will not be called for until a later date. New titles in any one section should, however, be sent to the editorial office at once, as they will form the basis for the supplementary list to be issued at the conclusion of the Z section.

May we suggest the use of a rubber stamp, using care that capital and lower case letters are given as in the list of symbols.

Stamp the library's symbol above the page numbering and at each item checked.

Please enter checking beneath the title to which it refers, and if possible avoid using the margins. Do not write in new titles. These should be sent on 3 x 5 cards, with full bibliographical entry.

A current file is designated by +; as 1+ or 42+.

Incomplete volumes or years are shown by the use of brackets, i.e. [1-4]-[18-40]+ (or if no volume numbering is given [1896-1906]) unless the library expects to complete before the list goes to press. Minor wants may well be ignored in the more general series, but exact listing is desired for rare or unusual titles: i.e. v1 no8-14, Ap-N 1844.

Use volume numbers whenever the publication carries them, rather than years.

## Assistance desired from cooperating libraries

With some six hundred libraries cooperating, it is earnestly requested that whatever schedule is adopted will be adhered to by each library.

When an entry is incomplete, or incorrect, please give all information available to correct it: i.e. day, month, year as well as volume and number of every first and last date, each series change, change of title, etc. When reporting such changes, please include this information as a matter of routine.

The point of departure in checking the list should be the library's own catalog, rather than the titles presented in the checking edition. Otherwise, rare or unusual titles will be missed. The checking should be planned so as to discover all obscure and rare holdings which may not have been found in preparing the checking edition.

## Statement of classes to be omitted

A serial is defined as, "A publication issued in successive parts, usually at regular intervals, and, as a rule, intended to be continued indefinitely." For the purposes of this List, serials include periodicals, numbered monograph series, society transactions, etc., and annuals recording or summarizing the progress of research in various fields.

The following classes are specifically to be excluded: Government publications (except periodicals and monograph series issued by governments); Administrative reports of societies, universities, corporations, etc.; Almanacs; Gift books; American newspapers; English and other foreign newspapers after 1820; Law reports and digests; Publications of agricultural (and other) experiment stations; Local religious, labor and fraternal organizations, boards of trade, chambers of commerce; National and international conferences and congresses, etc.; House organs (unless of technical or scientific value); Alumni, undergraduate and intercollegiate fraternity publications; and in general all titles having a highly limited or ephemeral value.

Exceptions to the ruling and to be included: Numbered monograph series; Annuals recording or summarizing the progress of research in various fields.

# Explanations

A serial not published by a society or a public office is entered under the first word, not an article, of the latest form of the title.

A serial published by a society, but having a distinctive title, is entered under the title with reference from the name of the society.

The journals, transactions, proceedings, etc., of a society are entered under the first word, not an article, of the latest form of the name of the society.

Learned societies and academies of Europe, other than English, with names beginning with an adjective denoting royal privilege are entered under the first word following the adjective. These adjectives, Kaiserlich, Königlich, Reale, Imperiale, etc., are abbreviated to K., R., I., etc., and are disregarded in the arrangement.

Colleges and universities having a geographical designation are entered under the name of the city, state, or country contained in the title. Observatories, botanical, and zoological gardens, etc., not having a distinctive name, are entered under the name of the place in which they are located, unless they are affiliated with a university, in which case they are entered under the name of the university.

References have been made from earlier forms of a title or name to the latest form known, and in general wherever a reference might facilitate the use of the list. References from the name of a place to societies having their headquarters or meetings there are omitted in the checking edition. If practicable, these will be added in the final edition.
